

Research Week Event at the University of Bonab

**Grid Feed Control Software Optimization for PEX.**

Speaker: Dr. Mads Vesterin Bruer  
Assistant Professor at Aalborg University Esbjerg

Abstract: Through optimization using genetic algorithms, we propose a method for optimizing the value for PEX plant owners. This presentation confirms the Aalborg University (AU) research project, its outcomes, currently implemented plans, future vision and opens for discussion.

Host: Dr. Sogand Zohabi  
Associate Professor at the ECE Department of University of Bonab

Event: Thursday, 12 Dec, 13:45  
Topic: Grid Feed Control

شنبه 18 آذر 1402 - 13:45

## وبینار هفته پژوهش و فناوری-آذرماه 1402

Grid Feed Control Software Optimization for PEX

Research-Week Event at the **University of Bonab**:

## **Grid Feed Control Software Optimization for PtX.**

**Speaker:** *Dr. Mads Valentin Bram*

Assistant Professor at **Aalborg University Esbjerg**

**Abstract:** Through optimization using genetic algorithms, we propose a method for optimizing the value for PtX plant owners. This presentation outlines the Aalborg University GFCS research project, its members, company collaborators, plans, future visions and opens for discussion

**Host:** *Dr. Sajjad Shoja*

Associate Professor at the ECE Department of **University of Bonab**

**Date:** Tuesday, 12<sup>th</sup> Dec. 2023

**Time:** (10 am, Denmark)

(12:30 PM, Iran )

**Login Link:**
